One of the best parts of our finish offering is that many colors are shared between the Studio 1904, Classic and Artisan collections. As you move between collections to find the best option for you, shared finishes make it easy to keep your color vision from one collection to the next.

# PERSONALIZED LOOKS

Consider adding a bit of extra personalization to your space with innovative finish options that create truly remarkable impressions. Whether you're looking to enhance the details of a door style, achieve the look of a craftsman, or portray a modern taste, our innovative finish offering includes an option to suit your taste and your lifestyle.

HAND-WIPED GLAZE

PENNER GLAZE

## GLAZES

Accentuate the look of a door style with hand-wiped or penned glazes. The hand-wiped process results in rich, natural variations over the entire door, while penned glazes provide a unique "highlight" look to enhance the details of the door.

WOOD GRAIN PURESTYLE

## PURESTYLE™

PureStyle options feature an on-trend look with unmatched durability and cleanability. The Classic Collection offers three high-definition wood grain laminate PureStyle options. In the Studio 1904 Collection, you'll find eight PureStyle colors that combine the beauty of paint with the stability of laminate.

CERUSE FINISH

## CERUSE FINISHES

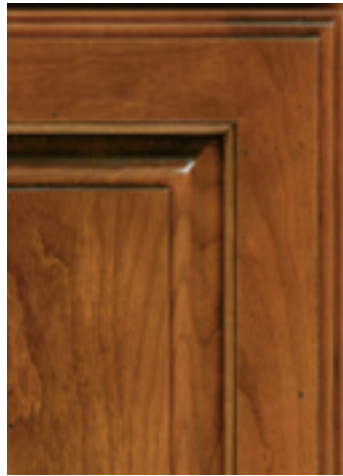

Achieve a look that is right on trend with today's furniture styling with Ceruse finishes. Ceruse finishes are available in Mist, a gray wash, and Cosmic, a black wash.

BRUSHED FINISH

## BRUSHED FINISHES

For a truly unique aesthetic in your space, consider the Artisan Collection's brushed finishes. Snowdrift Latte and Cotton Crow are hand-applied brushed finishes that let the touch of an artisan shine through.

## DISTRESSING & DISTRESSING PLUS

Distressing uses wormholes, tiny dents and light signs of wear. Distressing Plus adds more aggressive techniques like rasping and splits, artfully blended for a beautifully aged look.

LIGHT SAND-THROUGH

AGGRESSIVE SAND-THROUGH

## HEIRLOOMING & HEIRLOOMING PLUS

Heirlooming is a light sand-through to create a subtle, time-worn look. Heirlooming Plus is an aggressively burnished sand-through technique applied to corners and raised profiles, exposing the underlying wood.

MDF provides a smoother finish when painted and is more resistant to warping, expansion and contraction.
